Design Considerations

The 038 Series Two-Way Ball Valve compact design promotes multiple configurations to fit the exact end use application. The 038 Ball Valve Series is rated to 500 psi and will support flow and pressure in either direction. The 038 Series has a two-piece body and end construction to cover 3/8" NPT end configuration applications. The Zinc Die Cast Lever Handle is standard. Handles can be ordered Reversed - to lie over the outlet when the valve is in the open position. UL configurations are available and rated to 250 psi. UR configurations are available and rated to 500 psi.
